Jeremy Bloom

Athlete, World Champion, Record-Setter

CLOCKWISE FROM TOP LEFT: COURTESY OF JEREMY BLOOM. JONATHAN SELKOWITZ (2). JONATHAN SELKOWITZ

From an early age, Bloom pushed the sport, from bumps to freestyle to air time.

HIS 2005 SEASON WAS **ONE FOR THE AGES**. HIS STRING OF SIX WINS REMAINED UNBROKEN UNTIL 2012. AND IT LED HIM TO BOTH THE MOGULS AND OVERALL FREESTYLE WORLD CUP.

F

Few athletes have had such a dramatic impact on their sport in such a short span of time as World Champion Jeremy Bloom. One of the most highly competitive athletes in the history of the U.S. Ski Team, the two-time Olympian dominated freestyle moguls skiing in the first decade of the 21st century, winning World Cup titles, a

World Championship crown and a record win streak that remained unbeaten for a full seven years.

A Colorado native, Bloom grew up skiing the bumps at Keystone where his mother worked as an instructor. An alpine racer until the age of 10, Bloom was introduced to moguls by Breckenridge freestyle coach Scott Rawles and John Dowling. He never looked back. He would go on to medal at the Junior Worlds while, at the same time, achieving All-State honors for his state championship football team while attending Loveland High School. After high school, he was a star returner for the University of Colorado football team.

In 2003, he won a gold and silver in the two moguls events at the World

Championships at Deer Valley. The 2005 season was one for the ages for Bloom. His string of six straight wins remained unbroken until 2012. And it led him to both the moguls and overall FIS Freestyle World Cup. He went on to play in the National Football League for the Pittsburgh Steelers and the Philadelphia Eagles, before retiring from both football and skiing in 2009.
